List of Contractors Specialising in Work Associated with Petroleum Tank Cleaning, Removal, Transportation and Demolition.

IMPORTANT NOTES

- *This list of contractors is supplied solely for the purposes of providing contact information about contractors who represent that they have the requisite experience, equipment and competence to provide the services indicated.*
- *By its listing of such contractors the West Yorkshire Fire & Rescue Authority does not warrant that they are experienced, competent or suitable to provide such services and accepts no liability arising out of use and reliance upon this list. Prospective users of such services by such contractors should carry out their own pre-contract enquiries to satisfy themselves that any particular contractor is experienced, competent and suitable to provide any particular services. Contractors are listed alphabetically.*
- *Guidance for site operators or owners or their agents in managing contractors carrying out work on filling stations is given in the 'Code of Practice for Retailers Managing Contractors Working on Petrol Filling Stations'. ISBN 0 85293 2405 published by the Institute of Petroleum.*

Contractors working on filling stations are expected to be familiar with and follow the safe working procedures detailed in the 'Code of Safe Practice for Contractors Working on Petrol Filling Stations'. ISBN 085293 1948 published by the Institute of Petroleum.
